

CONSIDER THE FACTS

Today, millions of families are dealing with cancer. Medical advances have greatly improved the treatment for those diagnosed with cancer.

Anyone can develop cancer. Since the risk of being diagnosed with cancer increases with age, most cases occur in adults who are middle aged or older. About 77% of all cancers are diagnosed in people 55 years of age or older.*

American men have a 1 in 2 lifetime risk of developing cancer. American women have a 1 in 3 chance of developing some form of cancer.*

With statistics like these, ask yourself, "If I were diagnosed with cancer, how would I pay for this costly disease?"

We can help.

Medico® Insurance Company's First Diagnosis Cancer Insurance plan can help with the indirect cost of cancer, such as:

Lifestyle. Lost income, rent, childcare

Debt. Mortgage, personal or business debt

Medical. Deductibles, co-pays, medicine, experimental treatments.

WHY FIRST DIAGNOSIS CANCER COVERAGE?

Nearly everyone has experienced or knows someone who has experienced a cancer diagnosis in their family. Good news is that cancer screening and technologies have gotten better in recent years. However, with advance technologies come high cost. Medical health insurance is a great start, but even with this essential insurance, cancer sufferers can still be hit with unexpected medical and non-medical expenses. By having a lump-sum cash benefit in place, you can have peace of mind knowing that the financial burden will be less. You choose where and when to spend the money.
